ACADEMIC PROJECT

School Management System (Web Application)

Tech Stack: PHP (CodeIgniter), MySQL, HTML, CSS

- Developed a dynamic platform with **Admin, Teacher, Student, and Parent dashboards**.
- Parents can securely track student **attendance, marks, academic reports**, and **communicate** with class teachers and school admin.
- Teachers and Admin can send and receive messages with parents through the system.
- Fully implemented **role-based access**, responsive design, and secure database operations.
- Applied **MVC architecture** for scalable and organized code structure.

PROFILE

A passionate and detail-oriented graduate in **Bachelor of Computer Application (BCA)** from Uttaranchal University with a CGPA of **7.92/10** (Batch: 2022–2025). I have gained valuable industry experience through internships in **Client Relationship Management** and **Full-Stack Web Development using the MERN Stack**. I also designed and developed a complete **School Management System** using CodeIgniter, showcasing my technical capability and real-world problem-solving. I am actively seeking opportunities to grow professionally and academically through employment or scholarship programs.
